

Aesop® *Automated* Workforce Scheduling

TECHNOLOGY:
**NO INSTALLATIONS, HARDWARE,
OR SOFTWARE – JUST ACCESS TO
A MULTIMILLION-DOLLAR
APPLICATION**

Aesop is a Software-as-a-Service application hosted entirely by Frontline Placement Technologies. This technology means no installations at your company - no hardware or software. And since we provide the same sophisticated application to our entire client base, we are able to release free, instant enhancements for all clients. Through the SaaS platform, Aesop presents an affordable opportunity for companies of any size to access a multimillion-dollar application.

Aesop® *Automated* Workforce Scheduling

Benefits of SaaS

- No hardware or software to install and maintain
- Aesop's 24/7 continuous system monitoring provides optimized system reliability
- All clients profit from the most contemporary system enhancements available
- 24/7 internet access to your customized Aesop application
- Multi-tenant architecture (single instance, one-to-many model)
- Your data is secured in multiple world-class data centers such as: **SunGard's state-of-the-art hosting facility**
